

## "Slow down and live" is under way again

For the second year, "Slow Down and live," a national campaign to eliminate the "in-a-hurry" driver from the streets and roads of this country, is being

### Farm laborers needed in Ont.

Five hundred workers are required in Ontario immediately, according to L. J. Hutchison, Director of the Farm Labor Division of the Provincial Department of Agriculture.

Excursion rates for Saskatchewan farm workers wishing to take part in haying and harvesting operations in Ontario are again available, Mr. Hutchison states.

Low cost transportation has again been arranged under the Federal-Provincial Farm Labourers' program. The return trip is reduced from August 15 to 28th.

To participate in the excursion, workers must make transportation arrangements through their nearest National Employment Service office located in the major centres in Saskatchewan. Warrants will be issued by these offices, which, when surrendered to the railway agent with \$10.00 in cash entitle the worker to a one-way ticket.

Return tickets will be provided by Ontario railway agents on payment of \$21.00 and surrender of a properly-stamped and certified receipt given out when the going ticket is procured.

Farm laborers from Saskatchewan will be dispatched to either Toronto or Ottawa and will be re-ticketed from these points to the places of employment.

Additional information may be obtained from managers of National Employment Service offices and agricultural representatives in Saskatchewan.

### Do you know that the Canadian National Institute for the Blind

sends a Christmas gift to every blind person registered with it. These are chosen to be not only of real economic value, but without sacrificing the "spirit of Christmas," in being the little extra over and above their needs. Radios are also provided free of cost on a "permanent loan" plan, where indicated, and batteries are also supplied.

### Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just wear a little FLEISCHMANN'S Active Dry Yeast on your plates. This pleasant powder gives a reliable sense of added comfort and security by holding plates more firmly. No gum, no sticky taste or feeling. It's alkaline (non-acid). Get FLEISCHMANN'S Active Dry Yeast today.

**YOU CAN SLEEP TO-NIGHT AND RELIEVE NERVOUSNESS TODAY TO-MORROW**

To be happy and tranquil before or after a good night's sleep, take Sedicin tablets according to directions.

**SEDICIN TABLETS** \$1.00—\$4.95 (Drug Store Only)

sponsored by the Canadian Highway Safety Conference. Simultaneously, the same drive is under way in the United States and Puerto Rico. The campaign will persist until Labor Day.

In Canada, Provincial Safety Co-ordinators in all provinces are conducting the fight and enlisting the participation of community safety councils. They are after the "wise guy" motorist, the one who slices into a lane of traffic and pushes everybody aside, who scarcely pauses at a busy intersection and makes everybody jump on the brakes, who suddenly decides to make a tight-hand turn from a centre traffic lane. He is the motorist who tries every trick in the book to get where he is going as fast as he can, without thought or consideration of others.

In 1968, the "Slow Down and Live" campaign is using every force to make the individual motorist understand that the fault lies with HIM, not the other driver. It points an accusing finger at him and says grimly, "Yes! You!" for no such campaign can be of any use whatever unless the "in-a-hurry" driver is made to realize that HE is the one at which the activities are directed.

Four items are listed for this highway hazard to watch:

1. Excessive speed.
2. Following too closely.
3. Improper passing.
4. Failure to yield the right-of-way.

They are all symptoms of the perilous "hurry complex" that turns up in more than 90 per cent of all highway fatalities. Too many people have participated in Canada's highway death toll—3,284 in 1967, relatively high for a nation of 17,000,000 people.

The Conference is urging everyone—motorist and pedestrian—to come to his senses and know that there is only one person who can effectively reduce highway deaths, and that one person is the individual driver and walker.

In other words, YOU.

### VANDALS CREATE DANGER

Further vandalism at the Sewage Disposal building at the Mile Slough has again created a danger of which children should be aware.

Boards have been ripped out of doors and windows of the building making entrance to it easy for youngsters. A false step inside the building would plunge a child into the sewage and water and from which they would have little chance of escaping.

Parents are urged to warn their children not to go near the building, at least until the doors and windows can be again boarded up. The danger cannot be over-emphasized.

Earlier this spring, the Town had all doors and windows boarded up but in recent days vandals have again torn off the boards. There could be no reason for doing this other than to create damage.—The Journal, Humboldt, Sask.

**WATCH IT!** We were not surprised that the wife won a slogan contest. But what did amaze us was that she said anything in 25 words or less.

TRACTOR FATALITIES in Saskatchewan have come down since the farm safety program has shown farmers how accidents happen and how they can be avoided. A feature of the educational program is the specially braced tractor, donated by an implement company. The Department of Agriculture, conducts tractor tipping demonstrations. Jack Peck, farm mechanics specialist in charge of the project, which attracts thousands of rural residents.

## Saskatchewan's fifth annual Farm Safety Week

Farm accidents are a national problem in Canada, and everywhere else people till the soil for the production of food. The loss of hundreds of lives and the injury of many thousands of farm residents in preventable accidents has begun to trouble the national conscience.

Saskatchewan's fifth annual Farm Safety Week will be observed July 20 and 26. There will be similar observance in Alberta, but elsewhere in this country no organized program exists for the prevention of accidents in farm work and rural homes. However, two national organizations are studying the problem and considering joint action to attack it.

In Saskatchewan the initiative was taken six years ago by the Department of Public Health, which accepts responsibility for the safeguarding of the province from self-inflicted accidents. The department has taken the lead. An important step toward action in other western provinces was taken at the first Western Canada Farm Safety Conference in Edmonton early this year, one of the outcomes being the organization of a Western Canada Farm Safety Committee.

In obtaining and analyzing detailed information on the magnitude and important aspects of farm accidents, the Saskatchewan health department has been a trail-blazer. It has had the partnership of a number of important organizations and institutions in developing this understanding of the actual accident situation. Among the most important contributions have been the detailed reports to their wards. The Saskatchewan

hospital insurance plan, now in its 11th year, has also been a fruitful source of important information. Thus Saskatchewan's study of farm accidents is years ahead of anything in this direction on the continent.

In some provinces, the available knowledge about farm accidents is confined to fatalities and nobody has found a way to discover how many farm people suffer in non-fatal accidents. Here in Saskatchewan, we not only know that 80 persons lost their lives in farm-work accidents last year. We also know in what kinds of accidents they were killed. Further, we know that more than 3,000 farm residents were admitted to hospitals after accidents in 1967, and we know why. We know, for instance, that tractor accidents killed 17 farm residents last year.

There is much more that we know. For example, of the farm residents who went to hospitals with injuries last year, more than half were hurt in their own yard, a fact which set the Department of Public Health working for cleaner yards.

Armed with all this knowledge, the Saskatchewan farm safety program, led by the health department's Health Education Division, has sought to make an unaware and complacent farm population attend to removable hazards, avoid dangerous practices, take better care of children, and by a variety of means within their own hands bring down the toll of death and pain, disability and economic loss.

In this safety education program, the department has had powerful allies in public and voluntary organizations and commercial interests, for instance, the Saskatchewan Farmers' Union, the Wheat Pool, the Agricultural Representative Service of the Department of Agriculture, the 4-H Clubs, Boards of Trade, and the implement industry. Insurance companies, too, have assisted. While the department spends considerable sums on purchased space and time, the messages to the farm people would not have reached so many without the help of the press, radio and television facilities.

The role of the department has been to use the mass media of information and education to give information and stimulate interest, to organize activity, and to supply the educational materials—literature, posters, exhibits and films. Each year new items have been added. This year the health department has printed many thousands of window stickers and envelope inserts.

Ultimately, it is local action that counts. The department's use of mass media such as press and radio and its supply of the ammunition in materials, are like the heavy artillery in warfare. Ultimately the foot soldiers have to occupy the terrain. The local people still have to do the job of safety promotion in their own communities.

The most important contribution to local citizens is the supply of program suggestions based on tested ideas. For instance,

### One final act: stroke of a pen

Final official act of the outgoing acting health minister, Hon. R. W. Bend, Friday (June 27) provided the last step in the launching of the new hospital services plan in Manitoba at 12.01 a.m. July 1.

Mr. Bend placed his signature below that of federal health minister Hon. J. Walter Monaghan to complete the formal hospital agreement between Manitoba and Ottawa. It ended 3½ heavy months of negotiation and drafting.

Complete satisfaction with himself for having attained the height is the successful man's first step down hill.

Local groups learn that farm safety rallies and farm safety picnics are useful occasions, and that help is available to make them count. Boards of trade are encouraged to join with farm groups in promoting safety as a good neighbor policy. The 4-H clubs are helped to conduct farm safety projects.

In the early stages of its effort, the Department had to invite and urge. Now the shoe is on the other foot. The department is being asked by organizations and individuals everywhere what they can do and what the department can do to help them accomplish it. Farm Safety Week is a useful device to focus attention on the tragedy and to permit a concentration of co-ordinated effort for its alleviation.

## Series of cooking schools to start in Sept.

What's cooking?

The answer, in terms of making the best possible use of electrical and natural gas cooking aids, will be provided for Saskatchewan homemakers at a series of cooking schools to be held by the Saskatchewan Power Corporation at various points in the province this fall.

Penny Powers of the Corporation's home service staff will give cooking demonstrations to interested groups at these one-day schools, starting early in September and available until the end of November.

Since a preliminary schedule for the schools is now being drawn up, numbers of clubs or other organization interested in having a school held in their district are urged to write to Penny Powers, Saskatchewan Power Corporation, Regina, as soon as possible, to file applications or obtain further information. Deadline for applications is August 10.

### DAVIDSON BAND TO FLOW-ERA IN SASKATOON

The Davidson Band and Maquettes journeyed to Saskatoon to play at the grandstand prior to the afternoon and evening performances at Flow-Era.

Flow-Era engaged a different band for each day of the six-day celebration.

## Delicious!

Serve warm, generously buttered... a delicious treat. If you bake at home there's never a failure when you use dependable Fleischmann's Active Dry Yeast!

### ALMOND TWISTS

1. Measure into bowl 1 cup lukewarm water. Stir in 2 teaspoons granulated sugar. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast. Let stand 10 minutes, then stir well.
2. Cream ½ cup butter or margarine. Blend in ½ cup granulated sugar. Beat in, part at a time, 1½ teaspoons salt. Add 2 well-beaten eggs. Add the yeast mixture and 1 teaspoon vanilla. Stir in 2 cups unsifted all-purpose flour and beat until smooth and elastic. Work in an additional 2½ cups (about) unsifted all-purpose flour.
3. Turn out on lightly-floured board, knead until smooth and elastic, place in greased bowl. Brush top of dough with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 hour.
4. Measure, prepare and combine.
5. Punch down dough. Turn out and knead the dough; set one portion aside to shape later. Roll one portion into a 12-inch square. Spread ½ of square with half the crumb mixture. Fold plain third of dough over crumb mixture, then fold remaining third over top—making 3 layers of dough. Cut 2 of filling. Cut rectangle into 18 strips. Twist each strip twice; place on greased cookie sheet. Press 2 of each twist. Brush with melted butter or margarine sprinkle with sugar. Shape second portion of dough in same manner. Cover. Let rise until doubled in bulk—about 1 hour. Bake in moderate oven, 350°, 20 to 25 minutes. Yield 36 twists.

## News Report From Edmonton

By Ken Mason

EDMONTON—A couple of weeks ago we spotted an item in the government's weekly Farm Notes, which said beekeepers may be throwing away money when they clean the honey out of frames in the fall and discard the bee brood.

The larvae and pupae, Farm Notes continued, might be turned to profit in the form of a "palatable and nourishing food." This, we decided, required further investigation. So we called on Dr. Brian Hocking, head of the entomology department at the University of Alberta, and Fumio Matsumura, graduate student from Japan who is here on a scholarship doing insect research.

Mr. Matsumura, who thinks nothing of eating baby bees, has learned through scientific tests that they are equal to beefsteak in protein content and way ahead in vitamins A and D.

As for the flavor, your fearless correspondent wasn't quite fearless enough to try some. But we learned that reactions are varied from those who have sampled the delicacy.

Unborn bees were deep fried and tasted by members of the home economics staff at the university and at the agriculture department. In most cases, the taster found the flavor not unpleasant until she learned what she was eating. Then it lost its appeal.

The flavor was compared with everything from Rice Krispies and crushed nuts to pork cracklings. The only real objection was psychological. J. W. Edmunds, provincial apiarist, was an exception. His reaction: "delectable."

Bee brood is already available in Alberta, imported in 3½-ounce tins which sell for around \$2 on specialty food counters. At that rate, baby bees are worth about \$16,000 a ton. Alberta beekeepers destroy some 20 tons a year, and that adds up to more than \$300,000.

If infant bees can be marketed as a luxury food for those who like rare and exotic morsels, it could provide a new source of revenue for farmers. An appealing name—maybe the French word for bees—might put it over to those with sensitive stomachs. That, however, is a problem for the advertising and marketing geniuses.

Actually, there's nothing really unusual about eating insects. Many primitive tribes make bugs an important part of their diet, and the nutritional value is high. For some reason, only civilized man's stomach turns somersaults at the prospect.

**WHERE'S THE RAIN?**—Continued dry weather has damaged crops over a wide area of Alberta and has created the worst forest fire situation since the early summer of 1956.

Much of eastern Alberta and most of northern Alberta have been hard-hit by drought. Provincial agriculture officials last week said the crops are so far gone in some areas that rainfall now would be too late to do much good.

In southern Alberta, the moisture supply is adequate and better than average crops are in prospect. Western regions also have had enough rainfall, along with the western part of the Peace River country.

There were 14 forest fires burning in Alberta last week, and only one was out of control, but as the dry weather continued the fire hazard in the forests was becoming explosive. Only in western regions was there enough moisture to reduce the hazard.

The provincial forestry branch hasn't regretted its decision to employ aircraft in the fight against forest fires. Last week the department had its own propeller-driven plane and helicopter in the air, as well as two leased aircraft and three chartered planes, for a total of seven craft ferrying men, equipment and supplies to trouble areas.

The worst situation was in the Pelican Mountains region north of Slave Lake, where 150 men were fighting a 600-acre fire raging through valuable timber.

In the extreme northwest part of the province last week, an Alberta forestry crew crossed the border into British Columbia to prevent a fire from spreading into the province.

**MORE NOMINATIONS PENDING**—The Social Credit party has announced dates for four

**STEP CHILD**—London—On her toes, this pony-tailed youngster demonstrates her dancing skill at the "cradle" of British ballet, the Rambert School of Dancing in London. The dancer, upstaging another child whose arm and face appear behind her, may be a celebrated ballerina of the future if she can stand the ten to fourteen years of instruction at the school, where many stars of ballet start.

## HITCH-HIKER HAZARDS

The opening of the summer motoring season has again brought a warning from motor club officials of the danger of picking up hitch-hikers who are strangers.

The forlorn gesture of the lonely hitch-hiker may arouse sympathy to most motorists but an official of the American Automobile Association warns that those who stop to pick him up are asking for trouble.

Pointing out that the record of hitch-hiker crimes rises sharply in the summer months, the official added that many a Good Samaritan motorist who offered a ride to a "clean cut young hiker" had wound up in a hospital, minus car and cash.

According to the Federal Bureau of Investigation in the U.S., the prints of two out of five thumb raised to beg a ride are on file with the police. An official points out that the majority of hitch-hikers do not intend to do the motorist harm and are law abiding citizens who merely would like the courtesy of a ride, but enough criminals use this method to find a victim that picking up a stranger is not worth the risk.

Aside from being robbed or beaten, the official explained, there is another very good reason for ignoring the outstretched thumb. In many instances, unfortunate motorists have been sued heavily by hiking passengers for injuries sustained in an accident.

Twenty-two states have laws which forbid "standing in the roadway for the purpose of soliciting a ride," but these laws do not protect the motorist. In actual fact, these laws are traffic safety measures and it is illegal in all but two states to hitch-hike from the sidewalk or road shoulder.

In the state of Washington, it is not only illegal to solicit rides but the motorist who stops to pick up a hitch-hiker also is subject to arrest.—Alberta Motor Association.

## It's a Bug's World

Somebody once figured out that there are as many insects in one square mile of land as there are people in the whole world. This works out to about 50 million insects to every human being, so people can consider themselves lucky that most insects are rather small. Small or not, though, they have, collectively, giant-sized appetites. Insects destroy one-third of all the food man grows, and this figure would be much higher were it not for agricultural chemicals. Adequate chemical control of these food destroyers has enabled man to grow not only more food but better quality food, and continued research in agricultural chemicals will increase food production while decreasing destruction.

more nominating conventions, in preparation for a general election expected next year.

A candidate for Bonnyville riding will be named Aug. 19 at a meeting in Bonnyville; while a nominating convention for Gleichen riding in the south will be held Aug. 20 at Strathmore. The others will be at Andrews Aug. 12 for Willingdon riding, and Mayerthorpe on Oct. 29 for Lac Ste. Anne riding.

So far, Social Credit has named only one candidate for the next election. The nominee is Marion Kells, Consort farmer, who will run in Acadia-Corona riding.

## Congratulations . . .

As there will be no paper for the next two weeks and the wedding bells will be pealing merrily the whole time, we would like to offer congratulations and best wishes to Shirley Mae Brown and Norris Tomlinson whose wedding takes place here on July 30th. To Connie Owen and Louis Fornal who will be married August 2nd. To Patricia Enger and Ernest Welguz whose marriage takes place here on August 6th and to Joan Fleming and Chester Spornitz who become man and wife on August 8th.

Long life and happiness to you all!

## NORTH EAST CORNER

Master Dale Larson spent several days last week visiting at the home of his sister, Mrs. Les Brady.

Mr. and Mrs. Stan Dudgeon and son and Mrs. Frank Younker visited in the district last week Thursday evening at Paschen-dale, Jane and Stan showed slides of their work in Africa. This was followed by lunch and a time of visiting.

Miss Joyce Cook of Edmonton spent a few days at her home here at the weekend.

Miss Gloria Savard has been visiting at the Golding home.

Bill Younker, Archie Cook and Bill Dootson were fishing at Moose Lake over the weekend. The fish were biting good—and no doubt the men were cooler than most of us.

Alice Cook has reported a very odd case among her chickens. A hen who had set herself away under a granary, sallied forth with 3 young chicks one morning. The family returned to the nest at night. Three days later a newly hatched chick tried to follow the rest of the family but had to be rescued till it got its land legs. A week after the original hatch, yet another chick appeared. Now Alice visits the granary daily to see if there are any more additions.

We knew the weather was hot, but hardly thought it would help hot chicks.

The new homes of Younker's and Nemyo's are progressing rapidly. Younker's house has had a coat of paint and we must say it looks very nice.

## Card of Thanks

We would like to thank all those who helped in any way with our Achievement Day, especially to those who so generously gave donations and the Buffalo Coulee W.I. for our lovely tea. Thank you all very much.

## Canadian Company Initiates Vigorous Expansion Program... NEW MASSEY-FERGUSON PLANT BUILDS 250 TRACTORS A DAY!

250 world-famous Ferguson System tractors every day... one in less than two minutes! A remarkable production figure that goes a long way towards proving this new Massey-Ferguson plant at Detroit one of the most advanced industrial facilities in the world.

Yet this is the output of only one of sixteen Massey-Ferguson factories that operate in seven countries—in Canada, the U.S.A., England, Scotland, France, Germany and Australia. Over 23,000 employees in these factories manufacture a complete line of farm and light industrial equipment that reaches

markets in over 135 other countries. The Detroit plant is part of a whole new series of developments ranging through product research, manufacturing and marketing, that have recently been put into effect by this dynamic 110 year company.

The largest manufacturer of tractors and self-propelled combines in the world today, Massey-Ferguson—a Canadian company with a truly international outlook—looks forward to continued progress in the mechanization of agriculture throughout the world.

## Jehovah's Witnesses Bruce Congregation

About five of Jehovah's Witnesses from the Bruce congregation will attend an international convention in New York City July 27 through August 3.

Mr. R. Foster, presiding minister of the Bruce congregation, in announcing the plans of the local delegates, said that an assistant minister, will be in charge of the local group during the convention. The witnesses not attending the Christian assembly and other interested persons in the area are invited to attend meetings held in the congregation of Bruce. Their Kingdom Hall is located at the residence of R. Foster.

Mr. R. Foster said that the local delegates attending the international gathering will benefit greatly not only from the rich spiritual provisions, but also from Christian association with Witnesses from foreign lands. The convention, he said, will further the understanding and "good will among various races and nationalities of Jehovah's Witnesses, and will also demonstrate to the world how the Bible message and Christian living can unite people from all walks of life, regardless of race or other backgrounds that tend to divide the world. Only common interest in the pure worship of the Creator, Jehovah God, can do this, he said.

When questioned about the expected attendance, Watchtower officials in New York pointed to the record attendance of 169,000 at the 1957 international convention in New York City's Yankee Stadium. At that time several overflow areas provided space for the Witnesses and interested persons. Yankee Stadium has again been secured, but because of the cramped quarters of the previous assembly the Polo Grounds will be used in addition. The program will be presented by the same participants following the first presentation in Yankee Stadium.

The cornerstone of Canada's parliament buildings was laid in 1860 by the then Prince of Wales, who later became King Edward VII.

## Minutes of Regular Meeting of Municipal District of Wainwright No. 61

The Council of the Municipal District of Wainwright No. 61 met in the Council room of the Municipal District on Thursday, the 18th July, 1958, at 9 o'clock in the forenoon.

Councillors: Dallyn, Garrioch, Patterson, Plaxton, Smallwood, and Archibald present. Also Trustee Hill, Chairman of the Wainwright School Division No. 32.

Reeve Archibald in the Chair. Patterson—That the minutes of 19 June, 1958 be approved as written. Cd.

Plaxton—That the accounts as recommended by the Finance Committee and subsequently received be passed and paid. Cd.

Archibald—That the Statement of Receipts and Disbursements month ending 30 June, 1958, be accepted and incorporated in the minutes. Cd.

Patterson—That The Construction Equipment Co. account be included in August Accounts when corrected statement is received as advised by their representative this date. Cd.

Smallwood—That the order from the District Court Judicial District of Edmonton reading in part "It is ordered adjudged and declared that the Respondent herein William Castle, has since his election become disqualified as a member of the Council and his seat is hereby declared vacant, and the Municipal Council for the Municipal District of Wainwright No. 61 are hereby directed that they shall forthwith declare his seat vacant," be received and under the provisions of Section 57 of the Municipal District Act being Chapter 215 RSA 1955, as amended, the seat representing Division 2 of this Municipal District is hereby declared vacant. Cd.

Patterson—That Chas. Wilbraham be appointed Returning Officer to conduct an election caused by the seat representing Division No. 2 being declared vacant, that a nomination meeting be held at the Village of Edmonton on Saturday the 2nd day of August, 1958, between the hours of 3 and 4 o'clock in the afternoon, as provided for in Section 50 of the said Municipal District Act. Cd.

Garrioch—That Gus Nelson be appointed Enumerator for Townships 41-42, Ranges 3-4 and 5, and Palmer Taylor for Township 43-44 Ranges 3 and 4. Cd.

Mr. Gordon Sterling of the Department of Agriculture, on invitation, addressed the Council and explained certain matters relevant to the Farm Purchase Credit Act. The Reeve extended to the speaker the appreciation of the Council for his attendance and information received.

Smallwood—That the passing of a Bylaw under the Provisions of the Farm Purchase Credit Act be withheld at this time. Cd.

Plaxton—That the report of Mr. Smallwood as to the Regional Library meeting held at Killam, 23 June, 1958, and that this matter will be dealt by the Wainwright School Division No. 32 in future, be accepted. Cd.

Plaxton—That the report of Mr. G. Stretch, as to inspections made of parcels of land under appeal from the general assessment, be accepted. Cd.

Dallyn—That further to Motion 167/58 that C. Gordon Stretch take Oath of Office as Assessor of this district, and to assess all matter reference to an Annual Assessment and the 1958 Personal Property and be paid at the rate of \$15.00 per day and 12¢ per mile. Cd.

Secretary advised the Council that under the Provisions of the Tax Recovery Act, Section 32-47-8-4; SW 30-44-9-4; SE 25-44-10-4 and NE 36-44-6-4 would be acquired by the Municipal District with no further delay.

Garrioch—That the Ministerial Order, Department of Municipal Affairs, dated 4 July, 1958, that the boundaries of the Municipal District of Wainwright No. 61 shall be altered to include the following lands Sections 19 to 36 inclusive in Township 42, Sections 1 to 18 inclusive in Township 43, all in Range 5; Sections 19 to 36 inclusive in Township 42, Sections 1 to 12 inclusive and Sections 13 to 18 inclusive in Township 43 all in Range 6; Sections 22 to 36 inclusive in township 42, all of Township 43, Sections 1 to 11 inclusive, 14 to 23 inclusive, 25 to 34 inclusive and these portions of Sections 35 and 36 not previously included in the Municipal District of Wainwright No. 61 all in Range 7, Sections 1 and 2 and Sections 11 to 36 inclusive, All of Township 44, Section 1 of Township 45 all in Range 8, Sections 12-24-25 and 36 in Township 43, Sections 1-12-13-24-25 and 36 in Township 44 all in Range 9.

All of the above described lands lying west of the fourth meridian, effective 1st day January, 1958, except for the purpose of Certificates of Assessment as required by Sections 284 and 297 of the School Act and Section 110 of the Municipal Hospitals Act for which purpose this Order shall be deemed to have been in effect as of the 31st day of December, 1957, be received, that the Secretary enter the above parcels into the Assessment Roll of the Municipal District and apply for grant in lieu of Taxation on all lands and properties within the area of Camp Wainwright as provided for in Section 5 of the Municipal Grants Act, being Chapter 182 Revised Statutes of Canada as amended. Cd.

Agricultural Service Board: Smallwood—That the report of the Secretary as to 7 July meeting of the Service Board be accepted. Suggestions noted and action taken, that no recommendation be offered reference to proposed newsletter. Cd.

Home for Aged or Infirm Persons: Agreed, as many of the Council meet at Municipal District Office Monday, 8 a.m. 21 July, to visit other homes of this kind in the Province. Secretary to call a meeting of the Board to deal with administrative matters when data is obtained.

Patterson—That Messrs. Gordon and Mangold, Architects for the Home for Aged or Infirm Persons, be authorized to substitute the painting in bathrooms for plastic tile at an estimate of \$2368.00, also that \$200.00 be released to reinforce basement slabs. Cd.

Municipal Property: Smallwood—That this Council approve the house numbering in Central Park to conform with the Town of Wainwright house numbering system, that this matter be left with the Secretary to conclude. Cd.

Patterson—That F. Skinner be given the opportunity to occupy for grazing purposes the SW 30-44-9-4 until 1st March, 1959. Cd.

Bylaw 582 concerning the sale of 0.39 of an acre, more or less, of Bldg. Y, Central Park, pt. NW 32-44-6-4 to Her Majesty, the Queen in the right of the Province of Alberta, as represented by the Minister of Public Works, for the sum of \$250.00 cash, presented.

Passed 1st, 2nd, 3rd reading. Cd.

Bylaw 583 concerning the sale Lot A Bldg. 3 Plan 4740 KS Central Park, pt. NW 32-44-6-4 to Wainwright Self Cleaning Plant Limited, 0.70 of an acre more or less for the sum of \$200.00 cash, presented.

Passed 1st, 2nd, 3rd reading. Cd.

Bylaw 584 concerning the sale Lot 16-17 Bldg. 27 Plan 1155 A.E. Wainwright's Central Park pt. NW 32-44-6-4, to Harold Rose of Wainwright for \$30.00 cash each, presented.

Passed 1st, 2nd, 3rd reading. Cd.

Relief Grants and Health: Archibald—That the Secretary and Mr. Dallyn be a committee to see Dr. Harper of Chauvin along with Mayor Goodall of the Village of Chauvin and draft an agreement reference to petitions received from ratepayers Ranges 1 and 2 and report at August meeting with the agreement for approval. Cd.

Public Works: Bylaw 586 authorizing placing Stop Signs at Railway Crossing Section 36-44-7-4 presented.

Passed 1st, 2nd, 3rd reading. Cd.

Plaxton—That Mr. Garrioch undertake all matter of Public Works Nature in Division 2 until a Councillor takes office for that Division. Cd.

Patterson—That the Secretary arrange for an application to the Department of Highways to close or lease the road allowances between Sections 1 and 2 Townships 44 Range 5 With. Cd.

Secretary look into the matter of road to Jarow Elevator Site and Sec. 34-45-10-4.

Plaxton—That James Zajic be granted leave of absence from duties for 2 weeks as from 14 July, 1958.

Patterson—That the pay sheets be passed and paid. Cd.

Dallyn—That this meeting adjourn. Cd.

## Card of Thanks

I wish to express my thanks to everyone for cards, cigarettes, etc., sent to me while in hospital; also other acts of kindness shown to us. Your kindness was greatly appreciated.

Between 1956 and 1957 cor-  
poration profits in Canada de-  
clined by \$238 million.

Communications in Canada took an epochal stride forward on July 1st when the Trans-Canada Telephone System's coast-to-coast microwave relay system linking Sidney, N.S., with Victoria, B.C., went into full operation. The system, shown in the heavy black lines, is designed to carry television programs and telephone calls from coast to coast. It has a tremendous capacity, large enough to meet Canada's needs for

long-haul long distance voiceways and transmission of television programs for the foreseeable future.

In Saskatchewan the system is expanded by Saskatchewan Government Telephones' own "thin route" system, (shown in the thin black lines), to carry long distance telephone calls to the Trans-Canada network and other points in the province from Yorkton, Weyburn and Estevan. Calls originating near these points may first travel by land line, then by the

"thin route" system, and then by the main network to other parts of Canada. Land lines along the main route have been released as feeder lines to provide increased long distance facilities to many other points in Saskatchewan.

The heavy dotted lines show the proposed microwave links to serve stations at Prince Albert, Swift Current, Yorkton and possibly Moose Jaw, with CBC network television programs. The proposed "thin route" between

Saskatoon and North Battleford is still in the engineering stage, although provision is being made in the North Battleford telephone building for the microwave tower and equipment.

The whole microwave system in Saskatchewan is owned and operated by the telephone corporation. In co-operation with the other major Canadian telephone companies, the service becomes national-wide.

## Is it woollen or is it worsted?

Month upon month, women right across the country flock into stores to buy suits. There is much feeling of cloth, discussion of color, and trying on for fit. Textures are discussed too, since, when women buy an article of clothing, they do it thoroughly. They notice everything. Not many will call it texture or weave however. More likely they will comment on its smoothness or its roughness, its fineness or its coarseness. Actually they would help themselves if they learned the difference between the words "woollen" and "worsted". They come up so often in the purchase of important articles like suits, dresses, coats or skirts.

A worsted is a wool—but a wool fabric is not necessarily a worsted. Any wool fabric breaks down into the two types—a woollen or a worsted. A woollen is soft and fuzzy, a worsted is smooth and crisp. The difference is in the preparation of the yarn used.

Just think about what happens to your hair when you go hairless on a windy day. The strands blow every which way and end up matted together like a bird's nest.

Beautiful woollens start with a similar confused interweaving and overlapping of tiny fibres lying in all directions in the woollen yarn. However, run a comb through your hair and all the strands lie smoothly side by side. The same thing is done with wool in the worsted process. After washing, drying, and carding, it is combed so that all the strands lie parallel with all the short ends and broken pieces combed out.

After spinning and stretching, the long fibres are twisted for greater strength, and spun into worsted yarn. Then woven into a smooth fine cloth with the pattern and colors clearly showing.

13 pounds good hay per day. For half feed (nine pounds per day of good hay) add seven pounds oats, or six and one-half pounds barley, or five and one-half pounds dehydrated alfalfa meal. With one-third feed (six pounds good hay daily) add nine and one-third pounds oats, or eight and one-half pounds barley, or seven and one-half pounds dehydrated alfalfa meal.

If oat or barley straw is available it will provide some of the energy requirements for older classes of cattle but straw contains very little protein, few minerals and no vitamin A. Full feedings of mature pregnant cows or steers requires the use of about two pounds per day of 32 percent protein beef cattle supplement or its equivalent in order to avert heavy calf losses in the spring. The use of protein supplements should be based in accordance with the amount of straw and the quality of hay used. Nutritional needs are most critical with young growing animals and during pregnancy, Dr. Bell said.

A tweed with soft hairy surface and bluish muted colors, is a woollen fabric. A crisp smooth glen check business suit, is a worsted. This worsted is a hand-wearing light fabric that lends itself ideally to tailored outfits or tropical suits for summer wear. Woollens are bulkier and softer and are more often found in coatings and softly-tailored dresses and skirts.

## Western Development Museum folder

An attractive new folder on the Western Development Museum at Saskatoon, Yorkton and North Battleford is now being distributed by the Provincial Tourist Branch. It was announced by Harvey Dryden, Tourist Director.

The folder tells how the Museums started in 1947 with the storing of pioneer farm machinery in former air force hangars located in Saskatoon, North Battleford and Yorkton. From modest beginnings the Museums grew to such an extent that in one year alone more than 50,000 people visited the buildings in Saskatoon. Copies of the publication are available on request from the Tourist Branch, Legislative Annex, Regina.

## Careless campers cause serious fires

Residents and visitors are warned against the danger of unattended campfires in recreation areas, by Hon. C. C. Williams, minister in charge of the Fire Prevention Act.

A statement said the fire commissions' office had already received reports of three fires in the Qu'Appelle valley caused by campfires on beaches.

"In this extremely dry season with so little moisture in the ground, grass and bush fires can start easily and spread rapidly. A small spark carried by the wind from a beach campfire to the nearby grass can cause a destructive fire often resulting in the loss of property and sometimes life," he said.

These simple rules are for people to follow when building campfires:

1. Never build the fire close to dry grass or shrub.
  2. Never build a campfire too big. Make sure you are in control of it at all times.
  3. Never build a campfire on an extremely windy day without making sure of an adequate pit or fire box to stop sparks blowing to nearby bush and grass.
  4. When finished cooking with a campfire always make sure it is out.
- By following these rules you can help prevent needless destruction of property, scenery and sometimes life caused annually by forest and bush fires.

### PRES-TO-LOGS

Pres-to-logs, a valuable by-product of sunflower seed processing, have solved a major hull disposal problem for Co-op Vegetable Oils Ltd., Alberta. Man. after the installation of the first Pres-to-log machine in 1949, sunflower hulls were causing management and board of directors one of the biggest headaches in the plant's operation. Hulls accumulated on the plant grounds and although used as livestock bedding and chicken litter frequently couldn't be given away.

The Pres-to-log process supplied the answer. In fact their clean handling and high heat value has made them so popular as a fire-place fuel that a second problem has been created—the plant can't produce enough logs to meet the demand!—The Echo, Altona, Man.

## Two-parts perfect PRINTED PATTERN

4773  
14 1/2-24 1/2  
by Anna Adams

If you're shorter, fuller — sew this shortening version of fashion's favorite jacket dress. Printed Pattern is proportioned to fit you at shoulders, waist, hips—no alterations.

Printed Pattern 4773: Half Size 14 1/2, 16 1/2, 18 1/2, 20 1/2, 22 1/2, 24 1/2. Size 16 1/2 dress, 3 1/2 yards 35-inch; jacket, 2 1/2 yards.

Printed directions on each pattern part. Easier, accurate.

Send fifty cents (50c) in coins (stamps cannot be accepted) for this pattern. Please print plainly Name, Address, Style No., to Anna Adams Pattern Dept., Department P.P.L., 60 Front Street W., Toronto.

## Queen's portrait comes to Western Canada

Armed guards were on hand at Winnipeg's CNR station when a large, oblong crate was unloaded from an express car of the "Continental" recently.

Reason for the precaution was the arrival of an extremely valuable painting of Queen Elizabeth II from Vancouver, the painting is one by Pietro Annigoni, whose recent portrait of Princess Margaret caused a flurry of debate when it was exhibited in London. The Queen's portrait is on tour and its arrival in Winnipeg was for exhibition at the Winnipeg Art Gallery to members of the English Speaking Union and the general public. Painted in 1954, the portrait has been hung at the Royal Academy in London.—The Times, Delta, Alta.

## STRETCHING THE HAY SUPPLY

Advice to farmers on how to stretch the hay supply from roughage supplies for cattle feeding are limited was given recently by Dr. J. M. Bell, head of the animal husbandry department of the University of Saskatchewan at Saskatoon.

With the drastically reduced supply of hay, pasture and silage due to dry conditions this summer, farmers are faced with reducing herd numbers or else utilizing other feed resources until the next crop year.

Dr. Bell said that not everyone knows how little roughage a cow can get by with or the comparative values of grains and roughages when used for cattle feed.

When grains and hay are compared for source of protein and energy, it is found that the grains are superior as a rule, with the possible exception of legumes. This means that substitution of grain for part of the roughage is likely to improve the protein supply. Also, because of the higher energy content of grain each 100 pounds of hay could be replaced by 60 to 75 pounds of grain without lowering the plane of nutrition.

In extreme cases of hay shortage as little as four or five pounds of grain without lowering the plane of nutrition.

In extreme cases of hay shortage as little as four or five pounds of hay a day will likely maintain rumen functions, Dr. Bell said. He warned, however, that proper care must be taken to supply the necessary minerals and vitamins in the ration. Straw, poor hay or cereal grains supply no vitamin A, so this must be provided to prevent abortions and to increase disease resistance, he said.

The necessary vitamin A supplement is available in natural products and synthetic forms. The preferred source, he said, for cattle receiving limited quantities of poor roughage, is dehydrated alfalfa meal or dehydrated cereal grass. A cow requires 50,000 International Units each day which can be provided by one-half pound of good quality meal. Vitamin A needs of a cow can usually be met with alfalfa meal at a cost of one

to two cents per day for 50,000 I.U. of the vitamin. Synthetic vitamin A supplements can sometimes be obtained on request from feed manufacturers at competitive prices in a suitable form for farm use.

For most purposes in calculating the price a farmer can afford to pay for hay, he should relate it to prices for feed grain, Dr. Bell said. The values of average quality hay and average quality grains are as follows:

Hay at \$15 per ton: oats 35 cents per bushel, barley 51 cents, wheat 75 cents;  
Hay at \$20 per ton: oats 44 cents per bushel, barley 67 cents, wheat 98 cents;

Hay at \$30 per ton: oats 66 cents per bushel, barley \$1.02, wheat \$1.50 per bushel.

For example, if hay is available at \$20 per ton and feed barley is available at 60 cents per bushel the grain would be the best buy since 60 cents is below the 67 cent maximum shown above.

Care must be taken, Dr. Bell said, when straw is used to supplement the hay supply. Cattle (smooth awned or awless) and wheat straw can be fed in high proportions to wintering cattle along with top quality hay. However, with limited good green hay there may occur deficiencies in proteins, minerals and vitamin A and appropriate supplements should be used.

Flax straw is of limited value even if supplemented and should not be fed if it contains many immature seeds unless it has been tested for toxicity. Rapeseed straw and cleanings have been known to cause some trouble so should be used in limited amounts. Rye straw has practically no feeding value. Black weed seeds, especially mustards, should be finely ground and used sparingly along with good grain, if used at all.

Dr. Bell also gave example rations for a 1,000 pound cow, in calf, showing various alternatives with ground grain for providing the daily energy needs when good hay is available. Minerals should be added to the ration. The example is compared to a full feed roughage allowance of

## Try my delicious DESSERT BRAN MUFFINS

<p>Sift together 3 times 2 c. one-cup primary flour or 1 1/2 c. one-cup all-purpose flour 2 tsp. Magic Baking Powder 3/4 tsp. baking soda 1 tsp. salt</p> <p>Mix in 1 1/2 c. crisp breakfast bran cereal</p>	<p>1/2 c. lightly-packed brown sugar</p> <p>Beat until thick and light 1 egg</p> <p>Sift in 1 c. sour milk or buttermilk 1 tsp. vanilla 6 drops butter or margarine, melted</p>	<p>Make a well in flour mixture and add liquids all at once; mix lightly until just combined—do not over-mix. Two-thirds fill greased muffin pans with batter. Bake in moderately hot oven, 375° to 25 minutes. Makes 12 to 15 average-sized muffins.</p>	<p>You get lighter, more delicious baked goods with dependable MAGIC Baking Powder. Guard against failures... get MAGIC today!</p> <p>Costs less than 1¢ per average baking</p>

## Local News

When Mr. and Mrs. F. T. Thurston were returning to Irma from Baptiste Lake, they called on Mr. John Nolan at Athabasca. Mr. Nolan looks very well and sends his best regards to all old friends at Irma. Mr. and Mrs. Thurston say that our district still looks the best of anything they passed through in spite of the exceptionally dry weather we have had.

Born to Mr. and Mrs. Malcolm Frickellon of Chaurin on Saturday, July 19, a daughter.

Mr. Earl Tomlinson is home after a stay in Wainwright hospital.

Mr. and Mrs. C. P. Jones and family are on a fishing trip to Moose Lake.

Mrs. J. W. Matthews is visiting with relatives at Calgary.

Later she will be joined by daughter Marjorie.

Mrs. J. Fenton of Wainwright, pioneer resident of this district, is spending a couple of weeks at Irma at the home of her daughter, Mrs. M. Enger. On Sunday last, Mrs. Fenton celebrated her 85th birthday. A number of Irma friends dropped in to offer congratulations and best wishes.

Don't forget the Irma United Church Vacation School. It will begin August 11th and will last for two weeks—morning sessions only.

Mrs. F. Clumstad, Arlene and Harvey are holidaying in Edmonton.

Mr. Jack Rae was a recent Edmonton visitor.

Mrs. Roy Miles is a patient in Viking hospital.

Billy Inklin is nursing a broken arm. He is home after spending a few days in Viking hospital.

Visiting at the home of her mother, Mrs. Carl Larson, is Mrs. Murphy and son Bruce of Waterbury, Conn.

Mr. and Mrs. Larson and family of Edson are also Irma visitors.

Mrs. Alma Enger has returned from a visit to the city.

A physical examination for children who will be beginning school will be held by the Minburn-Vermilion Health Unit at the Irma School on Wednesday, August 6, 10:30 a.m. to 4 p.m.

Visiting at the home of the Drewick's this week is Irene's brother and family. Col. Lawton is in charge of the RCMP detachment in Weyburn, Sask.

We have one lucky winner in our community—E. J. Brewer from the gas camp, was fortunate to win \$50 in the Irish sweep stake.

Mr. and Mrs. H. Barber and family enjoyed a holiday to Calgary and Banff.

Fay Barber is attending Sunnyside Camp at Sylvan Lake with her aunt, Miss Violet Nelson of Viking.

Murray Dawson, who, for a number of years has been employed at Jasper National Park, has been appointed Chief Warden of Point Pelee National Park in southern Ontario.

The August meeting of the Irma W.I. will be held at the home of Mrs. C. Smallwood on Thursday, August 7 at 2:30 p.m. Hostesses, Mrs. McFarland and Mrs. Jack Raffle, Mrs. Glasgow; Program, Report of Const. Conference; Roll Call, bring a flower to make a bouquet. Visitors welcome.

The United Church picnic will be held at Steffansson's Lake on the afternoon of August 20th. There will be games for the children and free ice cream and coffee. Everybody welcome.

Arnold Enger, who is playing baseball this summer with the Red Deer Dodgers, is visiting at his home here.

Mrs. G. Fischer's sister, Mrs. Harry Gardler and her husband are attending the Empire Games at Cardiff, Wales. Mr. Gardler is competing for the Lawn Bowling Championship. Betty Gardler is visiting here with her Aunt and Uncle while her parents are away.

F.O. Donald Fischer expects to come from Germany to attend part of the Empire Games.

Note the time change on Mr. Brokop's Irma Theatre adv.—only Saturday shows begin at 8:00, the others at 8:30.

Mrs. Knowles is expecting a visit from her daughter, Kathleen (Mrs. Smith) of Toronto.

There will be a Community Auction at Andy's Garage in west Irma on Highway 14 on Saturday, August 2nd at 1:30 p.m. Those wishing to consign articles, contact Dick Bohrer, Auctioneer, phone 108.

18-25c

## Jarrow News

Those attending the Edmonton Exhibition included Mr. and Mrs. Mike Orzechski, Mr. and Mrs. Stan Bridgeman and Gordon, Mack Holt, Victor and Mr. K. Carter.

David Overbo of Edmonton spent a few days at the Ted Skori home. Leonard returned to the city with him, taking in a few days of the Exhibition.

Mr. and Mrs. Andy Grieve of Edmonton spent Sunday at the home Mrs. Grieve's sister, Mrs. Ralph Mark.

Mr. and Mrs. Bud Beer and Dwayne of Smoking Lake visited at the home of his parents, Mr. and Mrs. H. Beer over the weekend.

## Glen-Coa Cleanings

John Fluevog of Vancouver is spending a part of his vacation with his aunt, Mrs. N. Fluevog.

Dorald Yakemchuk of Edmonton is giving a helping hand at the O. Likness farm.

Many Sharon folk were at Hastings Lake Bible Camp Sunday last.

There are several guests this week at the B. Gulbraa home: Mrs. L. Peterson, Terry Sandra and Carol as well as Allen and Alven Likness of Edmonton, and Miss Myrna Harray of Viking.

Miss Myrna Harray, with the help of Miss Edythe Gulbraa, is conducting Vacation Bible School at Sharon this week. It is off to a good start with 25 pupils. The program will be held on Friday evening, July 25.

As usual Sharon Sunday School picnic will be held following V.B.S. at the picnic grounds at Gulbraa's lake on Saturday afternoon, July 26.

Mrs. O. Likness is driving to the coast with Mr. and Mrs. O. C. Johnson and Gerry of Camrose, leaving on Thursday of this week.

Sharon WMF will meet at the O. Raasok home on Thursday, August 7th. Assistant hostesses are Mrs. B. Gulbraa and Mrs. H. Ruste.

## NOTICE

The Board of directors of Irma Co-op Ass'n wish to announce that Milton Palmer has been engaged to manage the business of the Association.

Mr. V. R. Torrance, who has so successfully managed the business for the past 10 years, has been forced to resign owing to ill health.

Board of Directors,  
Irma Co-op Ass'n.

FOR SALE—purebred York Boar, 7½ months old. Apply Knute Gulbraa, phone 421. 25p
